Re: Freedom of Information Act (FOIA) Request  
Number 10-RIN-01289-94

Dear Ms. Bergstrom:

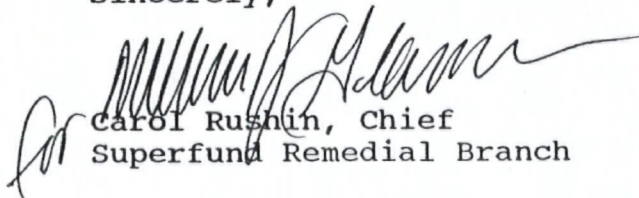

This letter is in response to your request dated September 14, 1994 concerning Pasco Sanitary Landfill.

In a telephone conversation with you on September 27, 1994, Lynda Priddy of my staff explained that the Washington State Department of Ecology (WDOE) has been identified as the "lead" for Pasco Sanitary Landfill. As lead, WDOE is not only conducting the investigation and remediation of the site, but is also the decisionmaker for all activities at the site. The site file and administrative record for the site is in the possession of the WDOE. The Site Manager for the site is Guy Gregory. His telephone number is (509) 456-6387. Ms. Priddy suggested that you contact Mr. Gregory for the information you requested.

Also in that telephone conversation, Ms. Priddy stated that the Environmental Protection Agency (EPA) had a minimal file containing some documents regarding the Pasco site. Some of these documents were submitted by WDOE. You stated that you were unsure whether you would want copies of any of the materials in EPA's possession. Ms. Priddy and you agreed that you would contact her within 30 days if you decided to copy materials contained within EPA's file.

This is an interim response to FOIA request number 10-RIN-01289-94. If you do not request additional information by October 27, 1994, this request will be closed.

Sincerely,

  
Carol Rushin, Chief
